228th St. SW Corridor Improvements

The City of Edmonds has completed the environmental review and 60% design plans for the 228th St. SW Corridor Improvements. The project will construct the missing link of roadway on 228th St SW from State Route (SR) 99 to 76th Ave W. and install two new traffic signals at the intersections of SR99 / 228th St. SW and 76th Ave. W. / 228th St. SW. The center median will be extended on a portion of SR99 to restrict left turns and improve safety. Sidewalk and bike lanes will be included along the new section of 228th St. SW. The project will provide a pavement overlay on 228th St. SW (80th Ave W to approximately 2,000 feet east of 76th Ave) and 76th Ave W (228th St. SW to SR99). Please see opposite side of sheet for map with missing link location.
